FRASER CITY COUNCIL – REGULAR VIRTUAL MEETING
THURSDAY – SEPTEMBER 24th, 2020 @ 6:30pm
AGENDA

1. CALL TO ORDER

2. PLEDGE OF ALLEGIANCE

3. ROLL CALL OF COUNCIL MEMBERS

4. APPROVAL OF AGENDA

5. CITIZEN PARTICIPATION ON AGENDA ITEMS

6. CLOSED SESSION

a. To Consult with the City's Attorney Regarding Trial or Settlement Strategy in Connection with Macomb County Circuit Court Case No. 2019-002843-CD
b. Strategy session connected with the negotiation of a collective bargaining agreement – Police Officers Association of Michigan
c. Consideration of material exempt from discussion or disclosure by law – written legal opinion of the City's labor counsel

7. REQUESTS FOR COUNCIL ACTION

a. Authorization to Purchase Lucas Chest Compression System

8. PENDING ITEMS OF UNFINISHED BUSINESS / REPORT OF THE CITY ADMINISTRATION

9. REPORT OF MAYOR AND CITY COUNCIL / NEW BUSINESS

10. CITIZEN PARTICIPATION

11. ADJOURNMENT

(Posted Thursday, September 17th, 2020 @4:00pm)

Time: Sep 24, 2020 06:30 PM Eastern Time (US and Canada)

NOTICE OF ELECTRONIC PUBLIC MEETING

In accordance with Governor Whitmer's Executive Order 2020-154, which authorizes electronic meetings of public bodies, notice is hereby given that the City of Fraser City Council will be meeting electronically on Thursday, September 24th, 2020 @ 6:30 p.m. using Zoom for videoconference and public access. The public can participate via the Zoom application, internet access via the Zoom website, and/or via telephone using the Zoom telephone number and meeting ID. The public will be able to hear Council members and will be permitted to speak for up to five minutes during the public participation portion(s) of the agenda. Please note that callers/viewers will automatically be muted, and must remain muted until called upon to speak by the Mayor. Written comments will be accepted prior to the date and time (no later than 4:30pm on the day of the meeting) by the City Clerk @ kellyd@micityoffraser.com. During the meeting, members of the public may e-mail comments to publicmeeting@micityoffraser.com. The e-mail must provide the following: 1. Your name, address, and e-mail address 2. The agenda item in your subject line, if your comments pertain to a specific agenda item. Public Hearing comments will be heard during any Public Hearing that is conducted during the meeting, and other comments will be heard or reviewed during public participation. The City of Fraser provides live public access to this meeting on Comcast Channel 5 and WOW Channel 10 and online at www.ci.fraser.mi.us. This live public access meets the OMA's requirements that all public body deliberations and decisions take place at a meeting open to the public. In addition, if technology permits, the meeting will also be streamed via the YouTube website and application.

The City of Fraser thanks everyone for their understanding and support as we all attempt to navigate these challenging times together.

Sept 24 COUNCIL MEMO

To:	Mayor and Council
From:	Marc Thompson
Subject:	Sept 24, 2020 Council Meeting
Date:	Sept. 17, 2020

Our Sept. 24 2020, meeting will begin at 6:30 pm

CLOSED SESSION

We expect that closed sessions will involve a significant portion of our meeting. Based on discussions with Mr. DeNault, we will have 3 distinct closed sessions dealing with 3 topics. We will begin our regular meeting, conduct limited routine business, move to closed session, return to our regular, move to closed session for topic 2, return to our regular meeting, move to closed session for topic 3, and then return to our regular meeting.

Attorneys Greg Meihn and Ryan Fantuzzi will join us in the closed sessions.

PRESENTATIONS

At this time, we don't have any presentations scheduled for our Sept 24 meeting.

REQUESTS FOR COUNCIL DISCUSSION/ACTION

AUTHORIZATION TO PURCHASE LUCAS CHEST COMPRESSION SYSTEM

- For use by our emergency medical personnel during CPR events
- Total cost, $20,500 to be reimbursed by Municipal Relief Fund Project
- Commonly used by many first responders in the area
- A useful tool for responding to many of our most serious calls for service

Fraser Department of Public Safety MEMO

To: City Manager Marc Thompson

From: Lt. D. Bisby

Date: 9/16/2020

Re: Request for Council Action – LUCAS 3 Chest Compression System

---

Sir,

The department has been approved through the CARES Act (via Macomb County) for reimbursement for purchase of the LUCAS 3 Chest compression system. The cost of the system is $20,562.40, the amount has been submitted through the county portal for reimbursement distribution. The next step is council approval for purchase of the system (quote is attached along with supporting documents).

I would recommend members refer to the second page, composed by Stryker Medical, for detailed benefits related to this equipment. If questions remain, please forward them and we will do our best to provide an appropriate response.

Feel free to contact me with any questions related to the matter.

Respectfully Submitted,

L-3

Lt. D. Bisby

June 8, 2020

Dear valued customer,

Based on the required regulatory applicability of certain products during the COVID-19 pandemic, please review the following information regarding Stryker's LUCAS® 3, v3.1 chest compression system.

Providing high-quality, Guideline-consistent chest compressions during a sudden cardiac arrest with minimal interruptions, the LUCAS device is designed to improve CPR quality while prioritizing caregiver and patient safety.

Some key features of the LUCAS 3, v3.1 device that can help with caregiver safety during COVID-19 include:

- Ability to maintain distance from suspected and confirmed COVID-19 patients during CPR
- Reduced number of caregivers needed to administer chest compressions during a code compared to a rotation of caregivers providing manual CPR
- Improved caregiver safety when providing CPR during transport

Additional guidance

The American Heart Association[1], U.S. Department of Defense[2] and Canadian Cardiovascular Society[3] propose a role for mechanical CPR in resuscitation during the COVID-19 outbreak.

In order to reduce the risk of SARS-CoV-2 transmission to caregivers, there are additional factors to consider when providing CPR:

• Manual CPR is a possible transmission route for caregivers because the mouth and nose of the personnel come close to mouth and nose of the patient[4] (that is valid for any other airborne transmission, such as meningitis)

• During manual CPR, the operator is performing an aerobic activity that increases his/her minute volume and makes it more likely to breathe in aerosol from the patient (patient exhalation of breath including airborne virus)

• During CPR, the patient may be ventilated with an airway device that is not a closed system

• The rotation of operators during manual CPR exposes more people to the disease transmission. When managing suspected and confirmed cases of COVID-19, the number of individual staff members involved in the resuscitation should be kept to a minimum with no or minimal exchange of staff for the duration of the case, if possible.[5]

Please visit strykeremergencycare.com for more information on the LUCAS chest compression system.

Sincerely,

Chris Walsh
Director of Marketing

Covid Project Form 07-06-2020	Different types of projects should be submitted separately		CFDA Number 21.019
A: Jurisdiction:	City of Fraser		
B: Point of Contact for Project:	Michael Pettyes	C: Email Address:	pettyesm@fraserdps.com
D: Phone Number:	(586) 295-6045		LUCAS CPR

Reimbursements must be related to a "substantially dedicated" activity dedicated to mitigating or responding to the COVID-19 public health emergency. AND the costs must not accounted for in the budget most recently approved as of March 27, 2020 (see attached guidance under instructions tab.) This form is to be used as a component in your decision making for requesting assistance. SEE INSTRUCTIONS TAB for additional information. **PLEASE SUBMIT USING INTERNET LINK IN THE INSTRUCTIONS TAB.**

E: Detailed Description of Costs:

Label the types of costs allowed: Payroll Costs, Unemployment Insurance Costs, Hazard Pay, Increased Workers Comp Costs, Equipment Costs, Housing Costs (excl taxes), Waste Removal, Administrative Costs, Other (Explain:)

Total Cost: $20,562.40 (See attched quote from Stryker Medical)

Name of Project: Lucas Chest Compression System

CPF122 - APPROVED

FOR PAYMENT REQUEST: SUBMIT THIS CPF DOCUMENT ALONG WITH YOUR JURISDICTION'S ACCOUNTING SYSTEM DOCUMENTS THAT VALIDATE THE FOLLOWING:
(from federal guidance distributed) ...for a cost to be considered to have been incurred, performance or delivery must occur during the covered period but payment of funds need not be made during that time (though it is generally expected that this will take place within 90 days of a cost being incurred).

SUBMIT USING THIS LINK: https://app.smartsheet.com/b/form/d8cc5d1dfb7245e09a447c3d612db1a7

F: Detailed Narrative of Intended Use/Outcome:

The Lucas Chest Compression System is a high quality chest compression system that allows improved CPR quality while minimizing caregiver safety by maintaining distance from the patient and the care giver. It further allows less personnel in the back of the ambulance while performing CPR, resulting in less exposure to the patient and possible disease transmission. Although we have two advanced life support units we wuld only need one Lucas Chest Compression System to fulifill our department needs. The purchase of this unit was not allocated in any city budget. (I attached additional information provided by Styker Inc indicating support for this product by the American Heart Association and the US Department of Defense for CPR resuscitation during the COVID-19 outbreak).

National Staff satisfaction

The LUCAS chest compression system's impact on cardiac arrest calls was evaluated by 759 LUCAS users across 26 states.

Situation

Cardiac arrest is one of the leading causes of death in the Unites States, with up to 395,000 Americans falling victim to out-of-hospital cardiac arrest every year.[1] While survival rates vary across the country, it is well known that high-quality, chest compressions are a fundamental part of a successful resuscitation.

While chest compressions are key, cardiac arrest calls also require EMS personnel to perform a multitude of other tasks. Having the ability to provide high levels of patient care, in an efficient manner, while improving caregiver safety is a goal shared by all providers. From the field to the cath lab, LUCAS is your partner in life support, providing high-quality Guidelines-consistent chest compressions in any environment for as long as needed.*

> I am a supervisor and make arrest calls frequently. The LUCAS has changed the game. It has been the best innovation I have seen in my 25-year EMS career. The percentage of ROSC is amazing.[2]
>
> — David Buchanan
> Memphis Fire Dept.

88% agree that they feel safer, when patients re-arrest during transport, because LUCAS is administering chest compressions.[2]

92% agree the LUCAS chest compression system has helped them become more efficient on cardiac arrest calls.[2]

97% agree the LUCAS chest compression system allows them to better focus on other elements of a resuscitation (patient monitoring, airway management, starting medications, etc.).[2]

98% agree the LUCAS chest compression system has made their job easier when treating cardiac arrest patients.[2]

Feedback from

26 States

759 LUCAS users
